

Xlite V3 (Free Version)

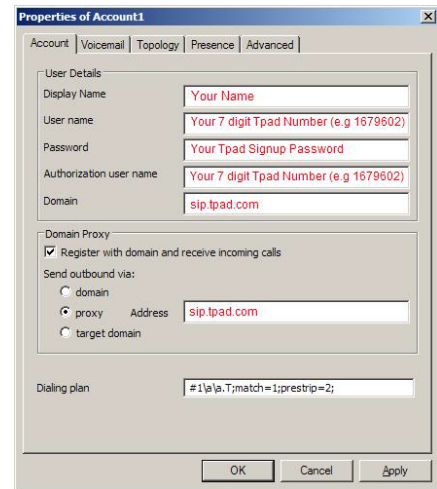

[Click here](#) to download the Free Xlite PC Softphone (V3.0 Build 41150)

1. Install the Xlite softphone as normal, click **UNBLOCK** if it asks.
2. Once installed, launch the Xlite softphone.
3. A box called SIP Accounts will appear, click the add button.

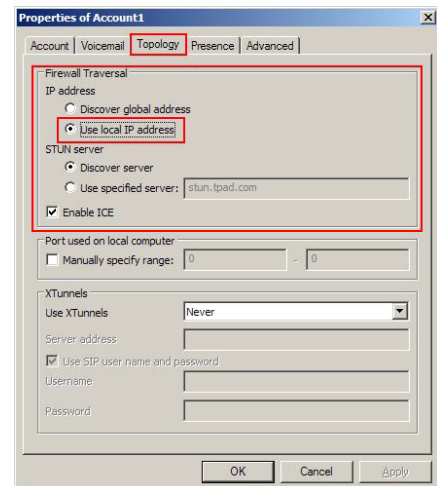

Xlite V3 – Properties Screen

Fill in the following settings:

- **Display Name:** Enter your Name
- **Username:** Enter your 7 digit Tpad Number
- **Password:** Enter your Tpad Signup Password
- **Authorization Username:** Enter your 7 digit Tpad Number (e.g. 1679602 found in your Tpad Email)
- **Domain:** Enter sip.tpad.com
- **Domain Proxy:** Tick the middle circle and enter sip.tpad.com

4. Then select the **TOPOLOGY** tab at the top of the phone.
5. Then tick the " **Use local IP Address**" box
6. Then click OK then CLOSE, the Xlite softphone will then restart.
7. Once the softphone restarts, wait a few seconds and the phone will display your Tpad Number if it correctly connects to our network.

How to make a Cheap Call to any Mobile or Landline in the World:

1. Dial the full international number of your friend from the softphone in this format only, then press the GREEN call button:

00 + Their Country Code + Their Area Code + Their ContactNumber

e.g. UK Landline = 004412827777XX Pakistan Landline = 00922546789XX
 India Landline = 009123456789XX US Landline = 0012345678XX

UK Mobile = 00447973304XX Pakistan Mobile = 0092345678912XX
 India Mobile = 00913123456XX US Mobile = 0012345678XX

How to make a Free Call anywhere in the World (Tpad User to Tpad User / IP to IP):

1. Simply dial the 7 digit Tpad Tpad Number of your friend into the softphone and press the GREEN call button, e.g. 1679602

This call will be totally Free and Unlimited to any destination in the World.

Next, visit [manage account](#) if you need to purchase Tpad Call Credit.

If you get Error 408 / 503 or any Audio Problems (No Audio / One Way Audio / Calls Disconnecting) use this easy fix:
